HONOKONO, PRIDAY, FEBRUARY 15, 1901.

Editorial Comment. Thanks to the persistency

of the Sanitary Board and the public agitation in our columns some months ago. we are at last enabled to judge of the action of the Government in the very important question of the Kow-

loon Water Supply. The judgment we are thus enabled to form is far from favourable. to those responsible for the delay which has occurred and the further delay now threatened in providing the 'dependency' of Kowloon with an efficient and adequate draw :-water supply. It was the persistent agitation of the few Enropean residents in try r. The Clab. Kowloon eight or nine years ago that induced the Government than to provide the

peninsula with water, it is again evident that the public will have to press the Government to proceed with the new works if anything is to be done at all to ameliorate the condition of the Kowloon residents, within a reasonable period. A recent Gazette contains three reports on the question. The first is an able and exhaustive report by Mr L. Gibbs, whose acquaintance with the Hongkong and Kowleon, water supplies renders him the best authority on the subject now in the Colony, and probably second only to Mr F. A. Cooper, the former Director of Public Works. That report gives a description of the existing works and a scheme for an increased supply. It is proposed to build a reservoir of 130,000,000 gallons capacity

on a stream in the neighbourhood of the new Taipo Read. It is estimated that this | On Time! will give a supply of 500,000 gallons ( a-day, the present supply being about 300,000 gallons. The cost, with the necessary filter beds, mains, service-reservoirs, &c., is put at \$380,000. The mains, service-reservoirs, &c., will be of sufficient L % pm. and it is estimated that for a further \$230,000 the supply can be increased to | 1,380,000 gallons a-day. Mr Gibbs' report (which is dated 8th January, 1900, Sovereigns (Bank's buying rate) ...\$10.00 and is, therefore, more than a year old opinion of Mr Chadwick, the Consulting Engineer to the Government in such matters. Mr Chadwick reported under date to the Latest Hours for receiving 22nd August, 1900, that the scheme was one which should be carried out forth-

with.' He suggested sundry alterations in the details of the proposed works, the Advertisements should be sent in before principal of which was the substitution, of a masoury for an earthen dam. Now, Mr Ormsby, under date 12th December, 1990, comes forward with a proposal to change the site of the dam and to increase its size, and it is proposed that the suggestion shall be referred home to Mr Chadwick. We are quite prepared to admit that Mr Crively is prompted to this by the best mentions, but has he ever heard of ) that celebrated pavement where water is at a very high premium. We do not pretend to judge in technical matters, but surely if would be better to adopt perhaps the less comprehensive scheme at once than wait

for years while the experts are thrashing out the question whether the dam is to be Outrage on French Sailors. placed 600 feet up or down the valley. Mr Gibbs' estimates of population made more

reached before the works are completed. The scheme is pronounced feas- from the ship were near a village about two ible by the Consulting Engineer, and we miles below Ningpo. An altercation becan only agree with him that it should be carried out forthwith. In forwarding a copy of Mr Chadwick's letter to H. E. the Governor in September last, Mr Chamberlain directed that the financial aspect of the scheme should be considered in connection with the Estimates for 1901. Was this done? If further dday is to be gauged by past experience on this subject, we are likely to see recurring water famines in Kowloon before the new scheme is started. By all means let us have an abundant supply. but let the worthy Director of Public Works keep before him the present necessities and the needs of the immediate future. Mr Gibbs shows clearly enough how the supply can be added to from time to time as increase of population and consumption justify extension, and Mr Chadwick gives unqualified approval in this connection. On the question of the site of the WHISKY, Gold Capsule... 15 00 dam we do not see the wisdom of THORNES BLEND and WATSON'S referring again to Mr Chadwick. That gentleman says in his notes on Mr Gibbs report: 'I have never visited the mainland, beyond the former frontier,' and elsewhere he mentions that there are some minor matters of detail in the report 'which require for decision more local knowledge than I possess at present.' In these circumstances, we fail to see any valid rea-

local requirements, and give Kowloon the

water supply it requires. We are pleased

to police that a paragraph of Mr Gibbs, re-

Large Freight Carriers.

Two steamers now under construction on the Pacific coast for the Eastern Shipbuilding Company, of Connecticut, U.S.A., and which are to run between California and the Orient, will be the largest vessels sailing on the Pacific. They will cost £1,000,000 each. The ships are to be registered at 20,000 tops, and will have a displacement of 33,000 tons, or 10,000 tons more than the Deutshland. Their leigth will be 630 ft, and their beam 75 ft., and they will have five continuous decks besides three others not extending the entire length. While mainly intended for freight, R. W. P. Band. they will have accommodation for a thousand passengers each, in three classes. They are to be propelled by twin-screws, and will have a speed of fourteen knots anhour and carry'4,000 tons of coal.

THE ATTACK ON EUROPEANS NEAR CANTON.

Execution of Nine Pirates.

(From a Correspondent.) CANTON, February 14. At 7:30 this morning, H. M. gunboat Robin, conveying Mr Twyman, British Vice-Consul, and a few naval officers; the German gunboat Shancen, convoying Mr Lange, of the German Consulate, and Commander S. Thanhardt, of the German cruiser Luchs; a steam launch convoying Mr Housen, the Dutch Consul (one of the four gentlemen attacked), and a party of friends left for Sam Yung Kee, the place where the four Europeans from Canton were recently attacked by pirates and three of them wounded. This had been fixed as the rendezvous to witness the execution of

two of the men concerned in that attack. The three vessels reached Sam Yung Kee ab Il a.m. Cards were sent ashere to the officials, who, however, informed the respective foreign representatives, in whose prosence the execution was to take place, that the Sun Tak magistrate had not yet arrived. The river front was lined with about 200 soldiers under General Li's command. At 11.45, the Sun Tak Magistrate appeared, escorted by a native gunboat. He at once went on board the Shameen, where the for-The eign representatives had assembled. The H.M.S. After some discussion however, the party was conducted to a Chinese junk and thence to

> The two prisoners were then led to a small matched, where the judge passed sontence upon them. They were taken down to the riverside, and there the decapitation was accomplished in a few seconds. Their heads were placed in two small cages, and left beside the bodies. Seven other pirates were executed a few

minutes after. These were not concerned in the attack upon the Europeans.

All was over at a quarter to one o'clock, when the three vessels set out upon the return journey. At the Chun Chum channot, a Chinese passenger jank was met. The Chinese reported that the steam launch which had been towing them had been cyclined by pirates, who steamed away in her. It is evident from this that the Sun Tak magistrate is not a terror to evil-doers; also that the piritis are case-Lardened. For here was another daring outrage perpetrated while the heads of nine whilem comrades were being lopped off a few miles

#### A Satisfactory Report.

The following is the report of the Board of Directors of the Hongkong and Whampon Dock Company, Limited, to be presented to the ordinary yearly meeting of shareholders, to be hold at the offices of the Company, Queen's Buildings, New Praya, on Monday, the 25th inst.:-

TO THE SHAREMOLDERS OF THE HONGKON AND WHAMPOA DOCK COMPANY, LIMITED

Gentlemen, - The Directors have now to submit to you their Report, with a Statement of Accounts for the half-year ended:31st December, 1900. The net profit for the six months, after paying interest due and all

charges, amounts to ......... \$533,162.48 to which has to be added the balance brought forward from last Account ......... 356,236.75

and from this have to be deducted -Directors' Fues..... \$9,000.00 Auditors' Fees ..... 750.00

The Directors recommend that a dividend for the half-year of 10 per cent. or \$156,250, in all \$375,000, be paid to the Shareing Shareholders, and \$25,000 to the European Staff, that \$82,862.96 be written from from the Cosmopolitan Dock, \$4,640 from at once vigorous, limpid and unhalting. Steam Launches, \$97,620.07 from the cost of material on hand, and the balance welcome numerous additions. \$256,757.20 carried to new account.

During the past six months the Company has docked a much larger amount of tonnage than in any former half-year, so that our docking resources have been utilised to the utmost limit in meeting the demands made upon us, and your Directors feel that if they are unable, within a reasonable time, to obtain from the Government a suitable site on equitable terms and come as a revelation. Mr. Allen has a big. conditions for the construction of another and by no means unmerited, reputation in dock, then a large portion of our business will be forced, from want, of docking accommodation, to go to some other port whence there would be difficulty in attracting it back to this Colony.

The comprehensive scheme of reconstruction for our Kowloon Establishment is now well in hand, and every effort is being made to have the new workshops and all the accessories completed at as early a date as possible, increased facilities in our workshops being greatly needed. Electricity as an illuminant and as a motor power is being increasingly appreciated, and engineers are finding electrically-driven ninohines more effective, speedier and more economical than was the case with steam. and with the view of having the whole of our plant as much up to date as possible. plans are now being prepared for a complete installation of the most modern type is that of a poor lad reared in the cloistered of Electric Motors.

Directors.—In accordance with clause 78 of the Articles of Association Massars J. S. Van Buren and J. H. Lewis retire by the first century and yet earlier ages than rotation, but being eligible, offer themselves for re-election. Mr E. Goetz having College in connection with a newly-opened left the Colony. Mr P. Witkowski has been invited by the Directors to the vacant seat at the Board. This appointment requires acrimonious dogmatic discussion combine to be confirmed by the Shareholders at this to undermine his faith. He is dismissed, meeting. Messrs R. Shewan and D. E. Brown have been invited to join the Board, and these appointments require confirmation by the Shareholders at this meeting. Mr R. Shewan has been appointed Chairman for the year 1901.

We heartily recommend this book to all who have not yet made acquaintance with the author's previous novel; to these, as well as to those who know the Forest Lovers,' the present volume, No. 406 in Macmillan's Colonial Library, will prove an unhesitating delight. It is the story of the wayward dungs of Richard of the Lionheart, who, although King of England during the last ten years of the twelfth century, only spent a few months on our shores. As an historical romance, it will surely rank with Kingsley's Hereward the Wake.' We cannot easily give it greater praise, and it is unquestionably deserving of nois lesser. It is apparently, in great part, taken from the chronicles of Milo, a Carthusian monk, Abbot of the cloister of Saint Mary-of-the-Pine, by Poictiers. From exordium to epilogue, through well over four hundred pages of closely-woven, finely-tissued plot, the interest never for a moment flags.
